- **Total revenue** for December quarter was \$8.59m (unaudited), compared with \$7.31m in the September quarter 17.4% increase (\$9.61m in prior corresponding period, a decrease of 10.6%).
- **Gross profit** for December quarter was \$3.32m (unaudited), compared with \$2.31m in the September quarter 43.9% increase (\$2.57m in pcp, an increase of 29.3%).
- The December quarter records **Net cash from operating activities** was \$197K (unaudited).
- AGM was held on 25 November, 2022 and all resolutions have passed including the adoption of remuneration report for FY2022.

Comments from MD Jack Wang

"JAT recorded a strong quarter and improved sales margin for Q2 FY2023, given the new Board of JAT was appointed on 1 September 2022."

"The new senior management has worked hard on recovering sales, brand building as well as reduced the negative impacts from historical issues."

"The new board will continue to deliver the value to our shareholders with continuous efforts to improve our operating efficiencies and market share."

"We expect momentum to continue in 2H 2020FY as China has lifted its Zero-Covid policy and consumers are building more confidence in our products."

Trading highlights

- ANMA's factory has improved production capacity by around 17% in the December quarter as the management has invested more into accurate production planning and scheduling. The factory has added more work shifts and improved equipment effectiveness. The new management is looking for the opportunity to further improve the production by adopting lean manufacturing practices, invest in new machinery or upgrading the existing equipment and potentially outsource production to gradually scale up the operations.
- In October 2022, JAT signed a new supply agreement with BTNature to manufacture up to approximately \$28m of milk powder products over the next 12 months. For the December quarter, JAT has received and completed approximately \$3.5m of production order from BTNature, which is partially related to the new agreement. Management expects that BTNature's order will increase in the next six months.
- New sales planning in Greater China is under review by management, including more sales in Hong Kong and through cross border online channels. Also, as a part of the extended brand building strategies, a new promotional budget for 2H FY2023 was agreed. Management believes that the new marketing campaign will improve our brand awareness and penetration in the target market.
- The board of directors has continued to review historical performance and taken steps to solve legacy issues left by the previous Board in the December quarter.
- In November 2022, JAT has commenced legal proceedings against certain former directors and their affiliates of its subsidiary Sunnya Pty Ltd. The principal points of contention include rights over certain trademarks and whether those directors have acted in conflict in diverting company profits for personal gain. Sunnya has obtained a number of injunction orders from the Court and will shortly be participating in a mediation with the counter parties. JAT and Sunnya intend to use that opportunity to explore potential commercial resolutions to the dispute to avoid the cost and uncertainty of the court action, but remains confident that should the proceedings continue, there are good prospects of positive findings in their favour.

Business outlook for 2H FY2023

- Since China has abandoned its stringent zero-Covid policy in November 2022, the demand for healthy food and nutrients has surged. Jatcorp is seeing its sales recovered and expects improved market performance of its popular brands like Neurio in China.
- Jatcorp has also prepared for exploration of other market opportunities in the Asia pacific region in FY2023. ANMA has improved productivity to meet the demand from our customers including BTNature. Management is optimistic of bringing ANMA operation to sustainable for the rest of FY2023.
